

ESG Management

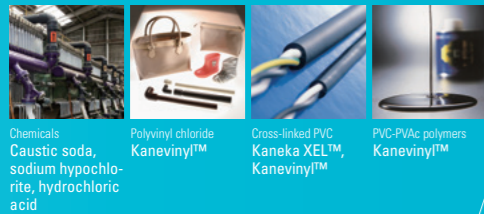

We base all our activities on our platform
-KANEKA thinks “Wellness First”

Earthology Chemical Solution

We bring innovation to lifestyles and the environment by harnessing the unlimited potential of chemical materials to help communities achieve sustainability.

Material SU

Vinyls and Chlor-Alkali SV

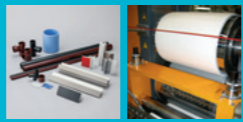

Chemicals
Caustic soda, sodium hypochlorite, hydrochloric acid

Polyvinyl chloride
Kanevinyl™

Cross-linked PVC
Kaneka XEL™, Kanevinyl™

PVC-PVAc polymers
Kanevinyl™

Performance Polymers (MOD) SV

Impact modifiers
Kane Ace™B, Kane Ace™M

Processing aids/Specialty additives
Kane Ace™MPA

Performance Polymers (MS) SV

Silyl-terminated polyether
KANEKA MS POLYMER™, KANEKA SILYL™

Acrylic silicon polymer
KANEKA GEMLAC™

Solutions Unit vision

Material Value Creator

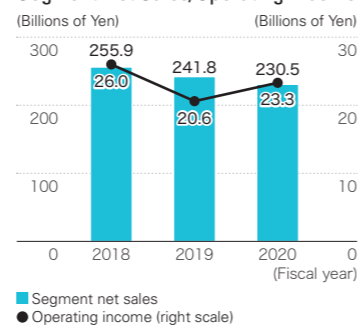

To support the advancement of life and the environment by drawing out the richness of the materials

Measures

Contribute to global environmental conservation and comfortable living

- Provide outstanding materials for evolving social infrastructure, mobility (lighter weight, more fuel efficient vehicles), and more
- Provide solutions where materials like biodegradable polymers are of direct help to ecological society

Segment Net Sales/Operating Income

Quality of Life SU

Foam & Residential Techs SV

Polypropylene foam made with the bead method
Eperan-PP™

Polystyrene foam made with the bead method
Kaneppearl™

E & I Technology SV

Super heat-resistant polyimide film
Pixeo™, Apical™

Super-high thermal conductivity graphite sheet
Graphinity™, others

PV & Energy management SV

Roof-integrated photovoltaics
VISOLA™, others

Photovoltaic power generation systems for public and industrial installations
GRANSOLA™

Performance Fibers SV

Materials for hair accessory products
Kanekalon™

Performance fibers for fur
Kanecaron™

Solutions Unit vision

Quality of Life Pathfinder

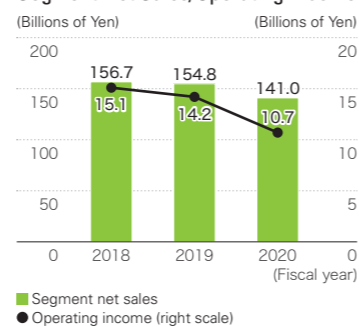

To produce the leading edge of the enhancement of the quality of life through the power of materials

Measures

Contribute to energy saving and a rich life

- Deliver energy-efficient housing solutions→Create a high quality, sustainable housing market
- Provide unique materials and services that excel regarding both energy saving and smart application needs

Segment Net Sales/Operating Income

KANEKA'S ESG

Trial & Error experiment driven company

By providing valuable solutions globally, we will continue growing and building a reputation for contributing to the evolution of people's lives and the environment throughout the world.

Contribute to the advancement of life and the environment of people world wide through chemistry

Active Human Life Solution

By adopting a unified approach to food and medicine that is defined by a focus on chemistry, we provide innovative solutions that empower people to live healthier lives.

Health Care SU

Medical SV

Medical device
Balloon catheter for vessel stenosis dilatation

Absorption Type Blood Purification Device
Rheocarna™

Regenerative medicine and cell therapy
Cell washing concentration system

Genetic diagnostic products

Pharma & Supplemental Nutrition SV (Pharma)

APIs and intermediates for small molecule pharmaceuticals

Affinity chromatography resin for purification of monoclonal antibody
KANEKA Kan-Cap™ series

Products and services for biopharmaceuticals

Transdermal medicine

Solutions Unit vision

Medical Edge Explorer

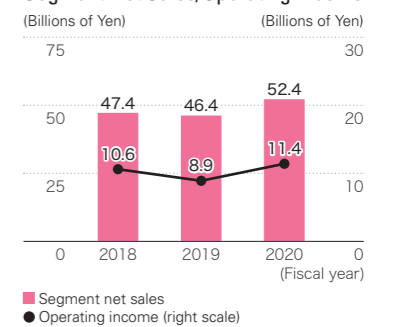

To create a world where advanced medical means are available to as many people as possible

Measures

Contribute to a society advancing in age and medical sophistication

- Strengthen marketing and product development globally in cutting-edge medical fields including biopharmaceuticals, and regenerative medicine and cell therapy
- Proactively utilize open innovation and U.S. R&B bases
- Provide solutions that deliver value by fusing devices and medicine

Segment Net Sales/Operating Income

Nutrition SU

Pharma & Supplemental Nutrition SV (Supplemental Nutrition)

Dietary ingredients
Kaneka Ubiquinol™

Dietary supplements
Watashi no Chikara™ Supplement product series

Plant-derived probiotics
Lactobacillus brevis ssp. Coagulans

Licorice glabra polyphenol
Licorice glabra polyphenol

Foods & Agris SV

Milk/Milk beverages
“Milk for Bread” series

Yogurt
Watashi no Chikara™ Q10 yogurt

Pound black margarine/Sheet margarine
NOVA™/EMPEROR™

Whipping cream/Creams for kneading and other uses
LACHENTE™/FRANJE™

Solutions Unit vision

Nutrition Value Chain Innovator

To re-innovate food and health

Measures

Contribute to health and a plentiful, varied diet

- Provide a broad range of solutions that help diversify and enrich people's diets
- Offer solutions that help prevent disease and promote health, and enhance the food materials lineup
- Deliver solutions that assist production in the fields of agriculture, livestock, and fishery

Segment Net Sales/Operating Income
