KANEKA CORPORATION

Price revision of liquid sodium hydroxide

- Kaneka increasing the price by 30 yen per kilogram for shipping on and after August 1 -

Kaneka Corporation (Headquarters: Minato-ku, Tokyo; President: Minoru Tanaka) will increase the sales prices of liquid sodium hydroxide by at least 30 JPY per kilogram (dry base) for shipments on and after August 1.

We revised prices in October last year but the raw material prices continued increasing.

We have been working to improve profits, but we have reached the limit of what we can do ourselves and we have determined that this price revision is necessary for providing a steady supply of products.
