KANEKA CORPORATION

Price revision of modacrylic fiber

- Kaneka increasing the price by 50 JPY/kilogram for shipping on and after May 1-

Kaneka Corporation (Headquarters: Minato-ku, Tokyo; President: Minoru Tanaka) will revise the sales prices of modacrylic fiber for flame retardant and material applications (product names; Kanecaron™ and Protex™). For shipments from May 1, the current price will be raised by 50 JPY/kilogram.

As utility costs continue to rise, we have been working to improve profits by reducing costs but we have reached the limit of what we can do ourselves and we have determined that this price revision is necessary for stable supply in the future.
