KANEKA CORPORATION

BENOIT NIHANT Toranomom Hills Store to Open
— Collaboration Store with “TULLY’S COFFEE & TEA” and “ROSE GALLERY” —

Kaneka Foods Corporation (Headquarters: Shinjuku-ku, Tokyo; President: Futoshi Fukuzaki), a group company of Kaneka Corporation (Headquarters: Minato-ku, Tokyo; President: Kazuhiko Fujii), will open “BENOIT NIHANT Toranomom Hills Store”, a collaboration store with Tully’s Coffee Japan Co., Ltd. (Headquarters: Shinjuku-ku, Tokyo; President: Yoshio Kobayashi) and Japan Flower Group Co., Ltd. (Headquarters: Chuo-ku, Tokyo; President: Yoshiaki Matsumura) on Wednesday, April 9, 2025.

“BENOIT NIHANT Toranomom Hills Store” is a second store in Japan following “BENOIT NIHANT GINZA”, which opened in 2023. The store will offer a range of gift chocolates, including chocolate bars and bonbons made from cacao beans carefully selected from plantations around the world, as well as cookie tins and financiers, which are also perfect for business occasions. In addition, a variety of new products and exclusive products only available at the Toranomom Hills Store are planned.

The store will be located on the 1st floor of the “Glass Rock” building in Toranomom Hills, which is intended to be an international new urban center and global business center. It will be the 1st collaboration store with the concept shop with extension of tea collection, “TULLY’S COFFEE & TEA,” and the high-end rose speciality store “ROSE GALLERY,” which was established in 1975. Reflecting our shared ideas toward branding and products, we will collaborate to offer a luxurious, elevated experience of “brand new everyday life” with “café” and “chocolate” adding “rose” to color it. Three stores will host seasonal events and so on.

Based on our mission of “KANEKA thinks ‘Wellness First’”, Kaneka provides a broad range of solutions that help diversify and enrich people’s food and lifestyles. By expanding sales of products created by Benoit Nihant, who works on improving the natural and labor environments, we will contribute to solving global environmental issues.
